

STANDARD INSTALL INTERVALS

Below is a breakdown of the major milestones and associated timelines that go into each service implementation.

Your project coordinator will provide updates as these milestones pass and can provide detail within each step to answer any of your questions.

Each service has different standard installation intervals. Below is a list of the most common services and their associated intervals.

| ACCESS TYPE | DAYS |
|--------------------------------------|------|
| Broadband | 45 |
| Low Speed Access | |
| DS1, NxT1, EoC | 45 |
| DS3 | 60 |
| High Speed Access | |
| Fast Ethernet, Gigabit Ethernet, OCn | 120 |
| Voice | |
| Less than 50 DIDs | 10 |
| 50 or more DIDs | 30 |
